Summary

Skilled and detail-oriented full-stack developer with 5 years of experience building, deploying, and maintaining modern web applications. Proficient in React, Supabase, and the MERN stack, with strong knowledge of JavaScript/TypeScript, API integration, authentication, and database design. Adept at solving complex problems, writing clean and scalable code, and collaborating effectively in team-based environments.

Skills

TECHNICAL SKILLS:

- **Frontend:** React, Next.js , JavaScript (ES6+), TypeScript, Figma (UI/UX)
- **Backend/Cloud:** Supabase (Database, Auth, Realtime), Node.js, REST APIs
- **Database:** PostgreSQL, Supabase, Firebase
- **Other:** Git, Version Control, Responsive Design, Agile/Scrum, Problem-solving

Soft Skills: Project Management, Client Communication, Team Collaboration, Creative Thinking, Time Management

Education

■ Bachelor in Software Engineering

Addis Ababa University

May 2021–Present

Focused on full-stack web development using React and Supabase. Completed hands-on projects involving authentication, database design, RESTful APIs, and deployment workflows. Developed strong skills in JavaScript, SQL, version control (Git), and modern frontend architecture.

■ MERN Stack Development Bootcamp

Evangadi Networks

April 2023 - Aug 2023

Completed an intensive bootcamp focused on building full-stack applications using MongoDB, Express.js, React, and Node.js. Gained practical experience in API development, frontend architecture, and deployment workflows.

Experience

■ AiQEM Tech | MERN Stack Developer

Jan 2025 - Recent

- I worked there as an intern full stack developer, contributing to the implementation of data-driven advertising products for social media platforms. My responsibilities encompassed back-end development

■ Everlink Tech Solutions Inc. | React Developer

· July 2024 - Oct 2024

- I worked there as a frontend developer. I developed the admin page for the HelloBaleyuya mobile application. My role focused on creating a user-friendly interface for administrators.

■ Ashewa Technology Solutions | MERN Stack Developer

· Apr 2024 - Jul 2024

- I worked there as an intern full stack developer. I was involved in the design and implementation of an Employee Recognition System. My responsibilities included both front end and back-end development
